

Do you need **Sitebulb Desktop** or **Sitebulb Cloud**?

Which of these most sounds like your situation - A or B?

A

You don't collaborate on SEO audits

You're not crawling multiple times a week

Most of the sites you crawl are 50,000 URLs or less

You're probably better suited to **Sitebulb Pro**

B

You're part of an SEO team auditing one or more large websites

You need to crawl millions of URLs, not thousands

You want to be more efficient

You want to automate regular auditing & reporting

Switching to **Sitebulb Cloud** is highly recommended

Data stored locally

Slow crawling massive sites

You're frustrated by desktop crawling

Machine needs to be on

You collaborate with colleagues on audits

Sitebulb Desktop vs Sitebulb Cloud

Sitebulb Desktop

Sitebulb Cloud creates efficiencies for agency SEO teams

How **Moving Traffic Media** Increased Team Efficiency:

“The most impactful change that Sitebulb Cloud provided was the ability for everyone to work from the same crawl data. The speed...combined with the ability to schedule crawls at regular intervals, has allowed us to be more productive AND establish a more consistent process internally.”

Jon Clark, Moving Traffic Media Managing Partner

Candour's Journey to More Streamlined SEO Audits:

“Switching to Sitebulb Cloud will save you man-hours somewhere and a lot of headaches. We wouldn’t want to go back to a desktop-only solution now.”

Brendan Bennett, Principal SEO Consultant

Sitebulb Cloud enables better client work

Enabling **Impression** to Reinvest Thousands into Client Value:

“The ability to schedule a large crawl that may take days to complete, and then close my laptop down at the end of the day, knowing that the crawl continues, feels like magic.”

Charlie Norledge, Head of SEO Performance

Empowering **Gray Dot Co** to Collaborate and Scale:

“Now that we have Sitebulb Cloud, the entire team can use it. That includes our content team members, who are now using custom extraction for content strategy, and we’re also producing more internal linking audits, which we weren’t able to do at scale or as thoroughly before.”

Sam Torres, Chief Digital Officer
